OIL CONTROLLING

Vibrant beauty, naturally

Introducing our CireNat Botanical spheres, a unique innovation that harnesses the power of nature to deliver vibrantly coloured, 100% natural **exfoliating spheres**.

Colour with purpose

Made with **CireNat Rice bran wax**, each exfoliating sphere is enriched with potent **natural actives** that deliver vibrant hues, offering an effective replacement to synthetic pigments.

Redefine exfoliation

- *Perfectly spherical*
- *Gentle, even exfoliation*
- *Dual action*

For effective exfoliation, shape and texture are key. Research shows that round exfoliants, like our CireNat Spheres, *provide a gentler and more even exfoliating action* compared to rough, irregular-shaped particles that can cause micro-tears and irritation.

Experience the dual power of gentle exfoliation and natural active delivery for healthier, more radiant skin.
